

Fast Diagnosis When it Matters Most

■ Xpert® Xpress Flu/RSV

Xpert® Xpress Flu/RSV

The Need

- In patients of all ages, influenza and RSV often present with similar clinical symptoms, making it difficult to differentiate between the two infections¹
- Sensitivities of Rapid EIA Flu tests range from 50–70%²
- Sensitivities of Rapid Antigen RSV tests average 29% in adults³
- Both Rapid EIA and Antigen manufacturers suggest confirming negative results with RT-PCR or culture²
- Rapid RSV tests may have age limitations⁴

The Solution

- Accurate and reliable detection of Flu A, Flu B and RSV in as soon as 20 minutes*
- Enables healthcare providers to quickly deliver targeted therapies
- Streamlines laboratory operations
- Improves patient satisfaction

The Impact

Single-test confidence will accelerate your laboratory's workflow with on-demand, random-access flexibility. Combine performance with the capability to run other Xpert® tests on Cepheid's GeneXpert® system to achieve proven productivity increases in overall laboratory service.^{5,6}

Be Proactive

- Achieve fast results and improve patient management
- Early assay termination option: deliver positive results for Flu or RSV only reporting in as soon as 20 minutes* and negative results in 30 minutes
- Quickly deliver targeted therapies and increase peace of mind for patients

**Coverage, plus
Accuracy, plus
Peace of mind**

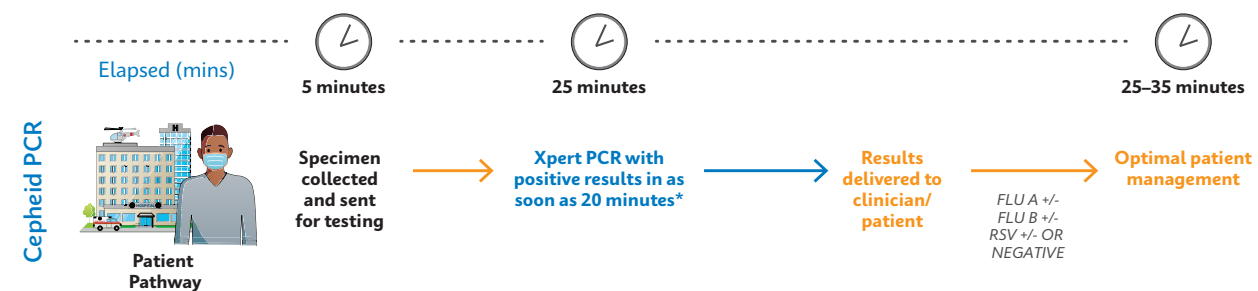

That's the **PCR_{plus}** advantage.
From Cepheid.

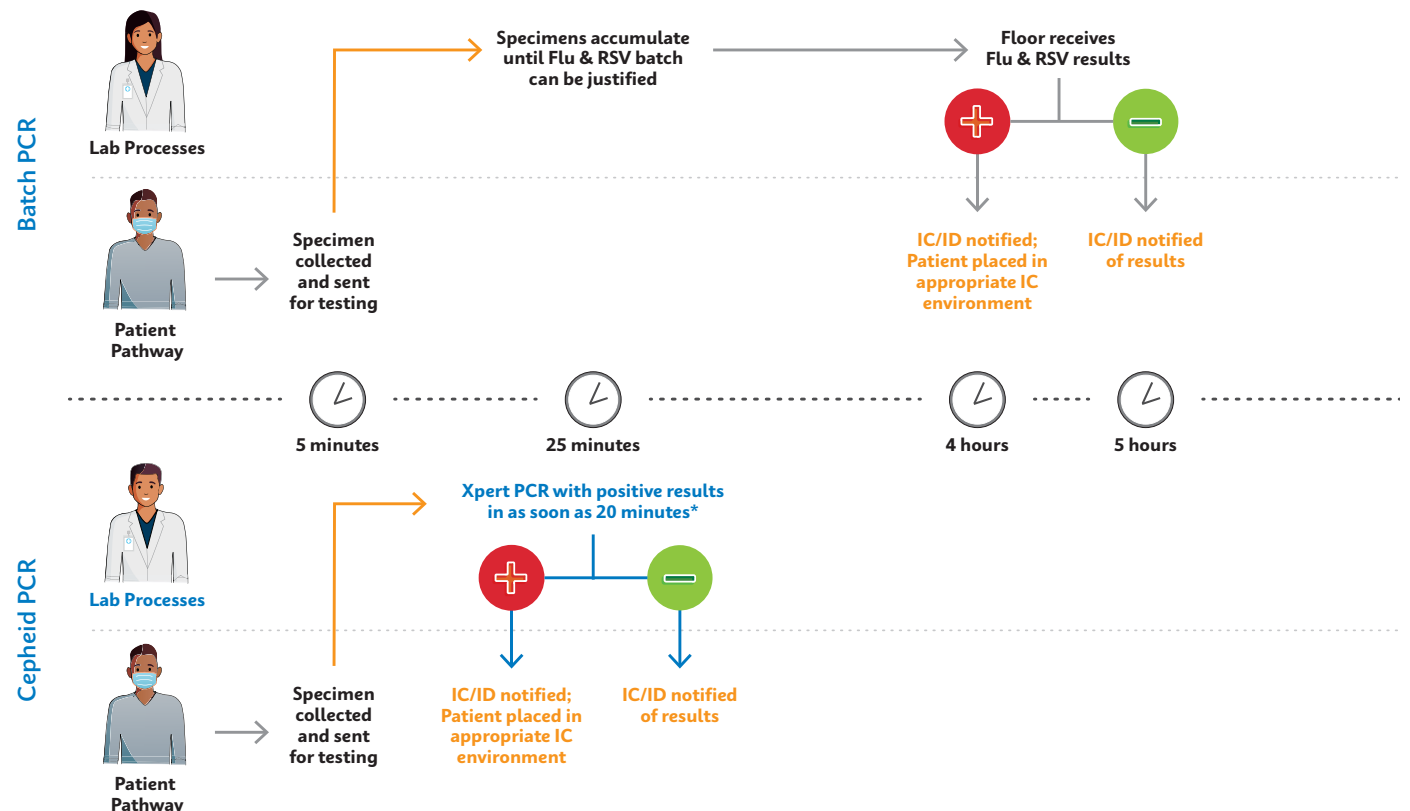

Impact on Outpatient Pathway

Improving Patient Satisfaction

Xpert® **Xpress** Flu/RSV provides medically actionable and timely information to clinicians to support improved patient management and antibiotic and antiviral stewardship.

Impact on Patient Admission & Management at Emergency Department

IC – Infection Control
ID – Infectious Disease

Workflow: 3 Easy Steps

1

Obtain specimen stored in appropriate transport medium or saline

2

Transfer sample to cartridge

3

Insert cartridge and start test

CATALOG INFORMATION

Xpert® Xpress Flu/RSV	10 tests	XPRSFLU/RSV-CE-10
------------------------------	----------	-------------------

SPECIMEN KITS REQUIRED FOR PRIMARY SAMPLE COLLECTION AND TREATMENT

CATALOG INFORMATION

Nasopharyngeal swab and Transport medium	50 test kits	305C
Regular flocked swab w/UTM	50 test kits	346C

* For positive Flu only or RSV only. Reporting negatives and combined reporting in 30 minutes.
