

# Cepheid AccessCare

“ AccessCare improved testing and cartridge consumption with a GeneXpert® systems utilization rate increasing from 66% to 77% in only two quarters.”

*Comment from Uganda TB Stakeholder Meeting*

## Ensure Better Access to Testing

Diagnosis is the critical first step in the path to health. Since the launch of its Global Access Program in 2011, Cepheid has worked to increase access to high-quality molecular diagnostics in low- and middle-income countries around the world. Our goal is to provide comprehensive support for the GeneXpert solutions so that our partners can focus on the important work of patient testing and care.

### Cepheid AccessCare

AccessCare is a comprehensive program that integrates service and support into test pricing based on a volume commitment, eliminating the need for additional contracts and burdensome administration. It ensures that all of your GeneXpert systems stay up and running, no matter where they are located, so you can focus on patient results.

#### Easy-to-manage service and support

- Only one contract
- Surcharge on cartridge price
- Service travel and accommodation included

#### Monitored performance

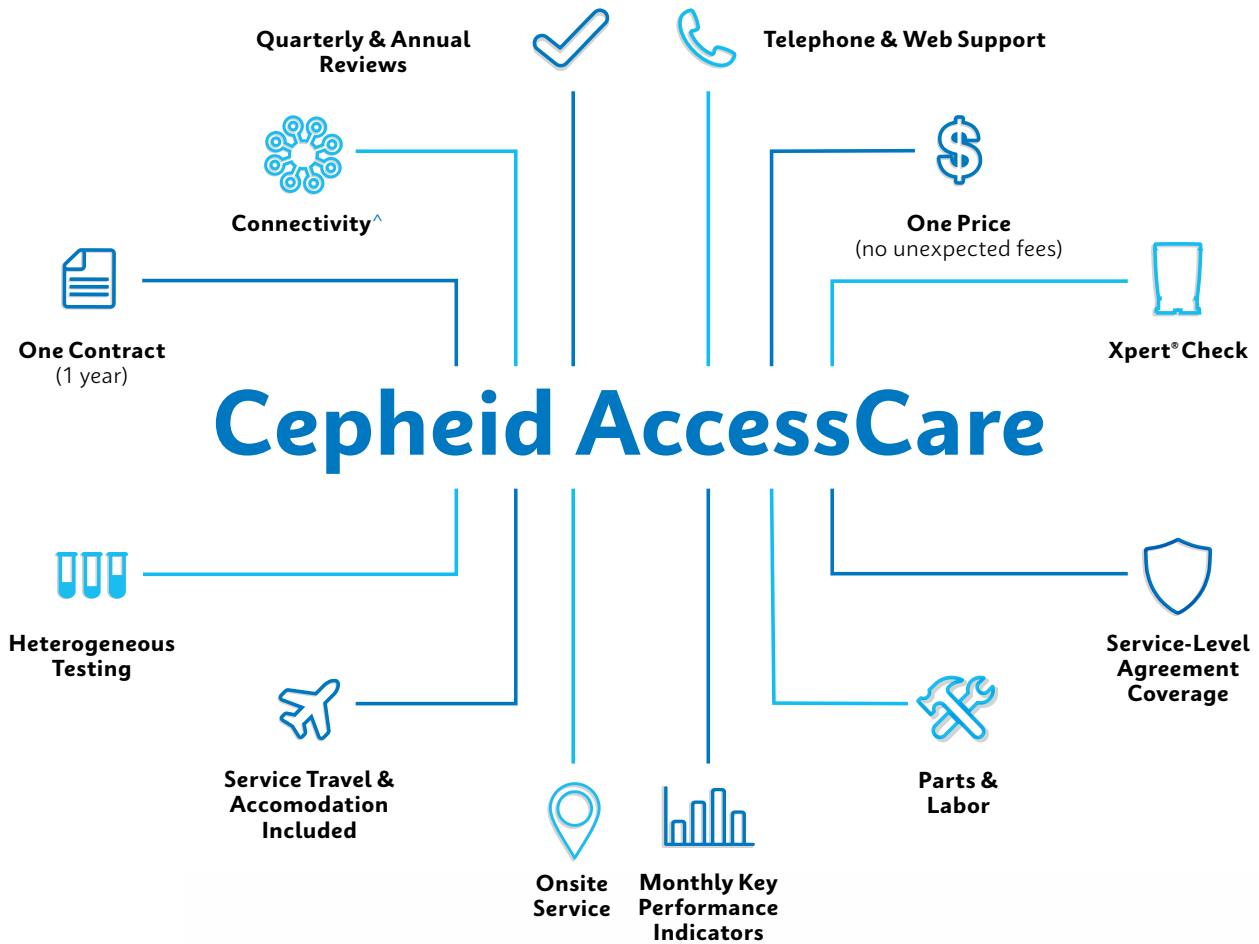

- Contractual service-level agreement
- Based on monthly key performance indicators

#### Testing focus

- All GeneXpert systems covered
- Available on all offered tests (MTB, HIV, HCV, HBV, HPV, etc.)
